

RYAN JAY T. REYES

Information Systems Analyst III | Web Developer | Full Stack Developer

Santa Ana, Tagoloan, Misamis Oriental | +63 935 855 4398 | rrwebsolutions1998@gmail.com
| linkedin.com/in/ryan-an-reyes-a45a9a277 | Portfolio: <https://my-portfolio.online/>

PROFESSIONAL SUMMARY

Information Systems Analyst and Web Developer with over 2 years of experience in government information systems, full-stack web application development, database management, system implementation, and technical support, plus 5 years of experience delivering freelance, independent web-based projects. Led end-to-end development of the Data Monitoring Tool (DMT-LGU), a Laravel and React platform now used by DICT to monitor eLGU systems nationwide. Proficient in Laravel, PHP, React, TypeScript, Vue.js, Next.js, Python, Java, C#, and Django, with hands-on experience in MySQL, PostgreSQL, SQL Server, and Supabase. Committed to building efficient, scalable, and user-friendly web applications and delivering reliable IT solutions.

PROFESSIONAL SKILLS

Programming Languages: PHP, JavaScript, TypeScript, Python, Java, C#

Web Development: HTML5, CSS3, React, Vite, Laravel, Django

Frontend Technologies: React, Vue.js, Next.js, TypeScript, Tailwind CSS, Bootstrap, shadcn/ui

Backend Development: Laravel, PHP, Django, Java, C#, RESTful API Development

Database Management: MySQL, PostgreSQL, SQL Server, Supabase

Tools & Technologies: Git, GitHub, Composer, npm

Development Practices: API Integration, Authentication, CRUD Operations, Responsive Web Design

Languages Spoken: English, Tagalog, Bisaya

PROFESSIONAL EXPERIENCE

Information Systems Analyst III

Department of Information and Communications Technology (DICT) | September 2024 - Present | Cagayan de Oro City

- Provides technical support for the implementation and operation of government information systems; assists LGUs and end users with system configuration, deployment, and troubleshooting.
- Conducts system orientations, technical training, and user assistance; coordinates with stakeholders on requirements, implementation, and deployment.
- Performs system testing, issue identification, troubleshooting, and technical documentation; supports database, web application, and system-related activities.
- Assists in monitoring system implementation and ensuring operational readiness of participating offices.

Key Project - Data Monitoring Tool (DMT-LGU): Led end-to-end development of a web-based reporting and monitoring system used by DICT to monitor the implementation and status of eLGU systems nationwide, with dashboards, reports, and data analytics.

- Developed backend and frontend features using Laravel and JavaScript; designed database schema and RESTful APIs for reports and monitoring data.
- Implemented dashboards, charts, and data visualizations with responsive, cross-browser design.
- Coordinated with DICT technical teams and LGU stakeholders on requirements; conducted testing, debugging, and QA to ensure a stable, reliable deployment.
- Documented technical processes and delivered a reliable, user-friendly monitoring tool that improves data visibility and reporting efficiency.

Key Project - eDTR (Electronic Daily Time Record System): Developed a regional electronic daily time record platform for DICT to digitize attendance and time-tracking processes across regional offices.

- Built the frontend using React, Vite, TypeScript, and shadcn/ui, and the backend using Django (Python).
- Designed the authentication and login flow, and implemented role-based access for regional users.
- Ongoing development and maintenance of the platform (2024 - Present).

FREELANCE / INDEPENDENT PROJECTS

LGU Gingoog Agriculture Management System

Independent Contract - LGU Gingoog City, Office of Agriculture | February 2024 - August 2026 | with Technical Assistance

Agriculture management platform covering farmer/fisherfolk registries, crop, livestock, and fisheries tracking, land mapping, cooperative and inventory management, field check-ins, analytics, and access control.

Tech Stack: React 19, TypeScript, Vite, Tailwind CSS, Redux Toolkit, Axios, React Router, Radix UI/shadcn, Leaflet, Recharts, Laravel Echo/Pusher, face-api.js, Google GenAI; Laravel API backend.

GCGEA Membership, Loan and Benefits Management System

Independent Contract - Gingoog City Government Employees Association (GCGEA) | July 2026 - August 2026 | with Technical Assistance

Membership and financial management system handling member records, contributions, loans, benefits, payroll deductions, approvals, budgets, disbursements, and audit logs.

Tech Stack: React 19, TypeScript, Vite, Tailwind CSS, Base UI/shadcn, TanStack Query & Table, React Router, Axios, Zustand, React Hook Form, Zod, Recharts; REST API integration, Laravel API backend.

Faculty Scheduler

Independent Contract - College/University Client | April 2025 - May 2026 | with Technical Assistance

Scheduling and faculty-load management system for administrators, department deans, and faculty to manage class schedules, rooms, curricula, teaching loads, reports, and notifications.

Tech Stack: React 19, TypeScript, Vite, Tailwind CSS, Redux Toolkit, React Router, Axios, Radix UI, Framer Motion, ApexCharts/Recharts, Laravel API backend.

EDUCATION

Bachelor of Science in Information Technology

Southern Philippines College | Graduated June 18, 2024

Achievement Award: Programmer of the Year

CERTIFICATIONS

- ICT Summit Schools 2023 - June 27, 2023
- Learn @Fligno: Laravel and CRUD API Development - April 29, 2023
- ICT Proficiency Certificate Exam: Programming, Level 1 - Passed, April 01, 2024
